PROFILE

Final-year Bachelor's student in Business Intelligence and Information Technology at Ibn Khaldoun University, specializing in **data analysis** and **web development**. Passionate about emerging technologies, especially AI and computer vision, I design solutions that combine analytical thinking, performance and user experience. I am looking for a **final-year internship (PFE)** in Data, Business Intelligence or development, to put my skills into practice and contribute to innovative projects.

SKILLS

Programming languages	C, C#, Java, Python, SQL
Web development	HTML, CSS, JavaScript
Business Intelligence & Data	Power BI, Excel, Power Query, DAX
AI & Computer Vision	OpenCV, YOLOv8
Tools	VS Code, Code::Blocks, Eclipse, Oracle
Modeling & Systems	UML, Windows
Soft skills	Problem solving, teamwork, adaptability, leadership, curiosity, communication, attention to detail

PROFESSIONAL EXPERIENCE

Intern — Banque Zitouna Headquarters

Summer 2025

Network Department · Tunis

- Observed and took part in managing internal network operations
- Contributed to compliance with internal procedures and banking regulations
- Gained experience in the technical and administrative running of a banking infrastructure

PROJECTS

AI-Based Exam Proctoring System

Academic project

Python · OpenCV · YOLOv8

- Computer-vision application that supports exam monitoring from a webcam feed
- Face detection and gaze-direction estimation; mobile phone detection with YOLOv8
- Flags events (face out of frame, looking away, phone visible) and saves timestamped captures
- Built as a support tool: every flagged event is checked by a person before any decision

Halo-Free — Eco-friendly e-commerce website

Academic project

HTML · CSS · JavaScript

- E-commerce website for halogen-free products in three categories: food, pharmaceutical and fire safety
- Category-based catalogue, functional shopping cart and a modern, intuitive navigation interface
- Full front-end development; next step: a back-end to manage products and orders

PawMatch — Matching & pet care application Live project · team

UI/UX · User journeys

- Application built around two modules: Matching (connecting pets) and Care (connecting pet owners)
- Contributed to the interface design and the navigation logic between modules
- Helped structure user journeys and interactions

Power BI Dashboard — Sales performance Academic project

Power BI · Power Query · DAX

- Cleaned and transformed sales data with Power Query
- Built KPIs and measures with DAX; added filters, slicers and interactive visuals
- Identified top-performing products and customers, and sales trends

EDUCATION

Bachelor's in Business Intelligence & Information Technology 2024 – present

Ibn Khaldoun University (UIK)

Baccalaureate in Mathematical Sciences 2023 – 2024

Lycée Borj Louzir

CERTIFICATIONS

HCIA-Datacom V1.0	Huawei	HCIA-IoT V3.0	Huawei
HCIA-Cloud Computing V5.5	Huawei	Introduction to Cybersecurity	Cisco
Introduction to Modern AI	Cisco	Fundamentals of Deep Learning	NVIDIA
Python Programming (ADI4 – RHA)	Red Hat	C++ Essentials	Cisco
JavaScript Essentials	Cisco	HTML Essentials	Cisco
CSS Essentials	Cisco	Introduction to IoT	Cisco

In preparation: ISTQB (software testing) · CAPM — Certified Associate in Project Management (PMI)

LEADERSHIP & VOLUNTEERING

Webmaster — IEEE UIK Student Branch

- Managed and monitored digital activities
- Contributed to online communication and event visibility

Event Organizer — Go DS 5 (tech event)

- Coordinated the logistics and organization of the event
- Collaborated with technical and operational teams

Event Organizer — FINNOVO 1.0

- Organized by AIESEC, IEEE UIK Student Branch and Easy Bank
